SUBJECT: Indiana/TDD# F5-8008-2  
Northwest Indiana/East Chicago Dump, Gary City Landfill,  
Federated Metals, and Stauffer Chemical

EPA Region 5 Records Ctr.

297716

On August 8, 1980, Bob Bartholomew and I were in Indianapolis, Indiana to gather information and talk with the Indiana State Board of Health about four Northwest Indiana sites. We talked to George Oliver and Bruce Palin of the Solid Waste Section and secured copies of files for these sites. We also talked to Dave Lamm the head of Solid Waste Section of ISBH. He checked with the Attorney about going on East Chicago Dump and Gary City Landfill. The attorney said that an inspection of these two sites would not interfere with the state litigation in progress. Dave was also going to check to see if we could go to Federated Metals and Stauffer Chemical the week of August 11, 1980. We also went to Water Pollution Section to secure files on these sites. Ray Bailey of Emergency Response section told us that we could contact a Richard Cleaton in Michigan City, Indiana office who could have been on these sites in the past.
